Federal Communication Commission
Washington, D. C. 20554**

In the matter of

Amendment of Part 97 of the Commission's)	
Amateur Service Rules to Eliminate)	RM-10782
Morse Code Testing)	

To: The Commission

Comments of Steve Glenner

I support adopting RM-10782 as a permanent rule.

The Morse Code (CW) testing requirement is no longer useful going forward. The WRC-03 decision to eliminate the CW testing requirement for HF access is the right thing to do.

Adopting RM-10782 would allow American amateur radio operators to have a level playing field with the rest of the world, which is rapidly moving toward the elimination of the CW testing requirement.

This will allow America to retain its leadership position in the field of Amateur radio.
